

Godhan DPR – Final (Consolidated)

1. Introduction & Vision

Godhan is a **farmer-first platform** designed to formalize cattle management, expenses, helper records, and marketplace trading.

The goal is to: - Improve farmer income through transparency & planning. - Build daily engagement via cattle logs, expenses, notifications. - Create a trusted marketplace for cattle, feed, and services. - Enable financial inclusion (wallet, coins, insurance, microloans).

2. Phase 1 – Farmer Onboarding & Core Features

Farmer Registration & Profile

- Register with **mobile number & OTP**.
- Profile completion → Aadhaar verification → Green tick (Trusted Farmer).
- Add family & helpers.
- Verified farmers get **Trusted Badge**.

Dashboard

- Farmer image & name at top.
- Quick links: Cattle Hub, Expenses, Wallet, Notifications, Marketplace, Helper Mgmt.
- Monthly income/expense chart.
- Smart insights: "Add 2 more cattle → +₹X income."

Cattle Hub

- **Cattle Onboarding**: Add cattle with tag, image, birth history.
- **Calf onboarding**: Later matures into cattle list.
- **Cattle Details Page**: Milk logs, insemination, calving, medicine.
- **Insemination History**: Tracks bull details, confirmation, pregnancy stage.
- **Calving Flow**: Predicts calving date, sends care plan notifications.
- **Lactation Tracking**: Shows which lactation cycle the cattle is in.
- **Daily Milk Logs**: Morning/Evening entries, monthly totals.
- **Coins reward** for regular updates.

Expenses Management

- **Daily, monthly, yearly categories**.
- Green fodder (daily or own farm with land lease).
- Dry fodder (yearly purchase, auto distributed).
- Labour wages (monthly/daily).
- Medicine (scheduled + emergency).
- Expense Dashboard: Today's expenses + month-to-date + history.

- Optimization Suggestions: "Growing fodder saves ₹X."

Wallet

- Used for cashback, refunds, unsettled payments.
- Transactions log: Wallet recharge, UPI, helper salary, purchases.
- Configurable commission, cashback, membership rates.

Notifications

- Alerts for insemination confirmation, pregnancy, dry period, calving, expenses.
- Notification page shows all logs (read-only for now).

Referral

- Farmer gets referral link + copy button.
- 100 coins joining bonus, 50 coins/referral (max 4).
- Referral summary shown.

3. Phase 2 – Marketplace, Helpers, Membership

Marketplace (Cattle Trading)

- Farmers list cattle for **Normal Sale** (Gold/Platinum) or **Auction** (Platinum only, ≤ 2 lactation).
- Listing Card: Tag/Nickname, lactation, pregnancy, milk yield.
- Silver members see limited details (blurred pregnancy/milking info).
- Verified History badge shown.
- Tokenization: Buyer pays ₹1000 to unlock contact & location. Adjusted in settlement.
- Commission: Gold (3%), Platinum (2%).
- Marketplace marks cattle "Sold Out" once deal closed.

Marketplace (Feed & Medicines)

- Products: Chuni, chokar, khal, pashu aahar, supplements, medicines.
- Stock levels: "5 bags left – hurry!"
- Farmers see **4 prices**: MRP, Platform price, Gold, Platinum.
- Highlight applicable price.
- Ratings & reviews: "4.5★ (1500 ratings)".
- "Notify Me" when out of stock.
- Savings shown: "You saved ₹450 this month."

Helper Management

- **Helper Dashboard**: Attendance, salary, advance, bonus.
- **Payslips**: Monthly summary + yearly slips download.
- **Contracts**: Upload signed contract (with confidentiality clause).
- **Experience Letters**: Auto-generated with DOJ, DOE, dues clearance.

- **Helper ID Card:** Auto-generated.
- **Quick Attendance:** Present/Absent/Half-day in 1 tap.

Membership

- **Silver:** Basic features.
 - **Gold:** Discounts, 3 report views, more marketplace access.
 - **Platinum:** Auction, 10 report views, lowest commission.
 - Coins redemption up to 50% of fee (configurable).
 - Membership upgrade flow (remaining period adjusted).
 - Dashboard shows: "You saved ₹8000 this year with Gold."
-

4. Phase 3 – Auctions, Micro-Hubs, Delivery

Auctions

- Only Platinum can list & participate.
- Eligible cattle: ≤ 2 lactation with verified history.
- New bid $\geq$ current highest bid + ₹1000.
- Auction dashboard shows history, bids, and summary charts.
- Auction earnings benefit: "Auction gave you ₹X more than normal sale."

Micro-Hubs

- Regional stock points (10 km radius).
- Weekly delivery schedule (cut-off times notified).
- Supplier → District Hub → Micro-Hub → Farmer.
- Admin panel for stock management.

Delivery

- Third-party integrated in later phase.
 - Cost decided by membership (Gold cheaper, Platinum lowest).
 - Delivery tracking page for farmers.
-

5. Cross-Phase Enhancements

- Referral growth engine.
 - Vet network & teleconsultation.
 - CSR/government scheme integration.
 - Recognition: Trusted Farmer leaderboard.
 - Escrow-as-a-service for trades.
 - AI-based health forecast (premium feature).
-

6. Reports

- Monthly & yearly milk productivity.
 - Expenses vs income graphs.
 - Optimization impact reports (eg. adding cattle improved income).
 - Gold/Platinum can export reports.
-
